Security Officer, Logistics Office

Actg. Chief, Administrative Staff

Current Status of Unvouchered Positions on
Departmental T/O of Logistics Office

1. The comptroller has stated that it is the desire of the DCI to use unvouchered funds only when security considerations absolutely require its use. The Logistics Office, at the present time, has a total of sixteen employees paid from unvouchered funds. The names of these employees and the position occupied by them are listed in the attached enclosure. It is requested that you examine the functions of these positions for the purpose of determining if the salaries of the incumbents should be paid from the unvouchered funds under the above interpretation of the DCI.

2. This matter is referred to you because the primary reason for the use of unvouchered funds is concerned with security. Your comments upon these positions will be appreciated.
